1. Overview

Operational register for IT and equipment: tags, assignment, audits, depreciation

Keep a single, tidy register of every physical and IT asset your company owns - laptops, phones, tools, furniture, vehicles - without forcing everything through financial fixed-asset accounting.

2. Key Features

- Tag each asset with an auto-generated unique asset tag (e.g. AST/00042).
- Track category, location, supplier, purchase date, warranty expiry and cost.
- Assign assets to employees and see the full custody history.
- Run periodic physical audits: scan/confirm each asset, flag missing or damaged
- Straight-line depreciation schedule so you always know the current book value,
- Lifecycle states from draft through in-use, in-repair, to retired/disposed, with

3. How to Use

Install the module from Apps, then open its menu from the Odoo top bar. Configure the settings, then use the documented screens to run your workflow.
