Consignment & VMI

User Guide · Odoo 18.0 & 19.0

Track supplier-owned and customer-held consignment stock with settlement on consumption

pokutsoft.com

1. Overview

Consignment & Vendor-Managed Inventory
==========

Manage stock you do not own yet (supplier consignment held at your site) and stock you own but is held at a customer's site (VMI / customer consignment). Consumption is recorded against agreements and settled into vendor bills or customer invoices, so ownership and money always reconcile.

Features -------- * Consignment agreements (inbound supplier / outbound customer) with terms. * Stock lines tracking received, consumed, returned and on-hand quantities. * Consumption recording with automatic settlement-due calculation. * Periodic settlement runs that batch consumption into a settlement document. * Replenishment min/max signals for vendor-managed locations. * Aging and valuation of consigned stock with full audit trail.

2. Installation

Open Apps, click Update Apps List, search for “Consignment & VMI” (technical name **gb_consignment_vendor_managed_inventory**) and press Install. The module supports Odoo 18.0 and 19.0, Community and Enterprise.

3. Menus & Navigation

After install the following menus become available:

- Consignment / VMI
- Agreements
- Settlements

4. Feature & Data-Model Reference

The app implements the following records and engines:

Model	Purpose
consignment.settlement	Consignment Settlement
consignment.agreement	Consignment Agreement
consignment.line	Consignment Stock Line
consignment.movement	Consignment Movement
consignment.settle.wizard	Settle Consignment Consumption
consignment.consume.wizard	Record Consignment Consumption

5. Typical Workflow

1. Open the app's Configuration menu and set up the master data / policies it needs.
2. Create the main operational record from its primary menu.
3. Use the action buttons on the form (e.g. Confirm / Compute / Post / Generate) to run the engine.
4. Review the results in the list, pivot and report views; export or post where applicable.

6. Support

Email **support@pokutsoft.com** or visit **https://pokutsoft.com**. Please include your Odoo version (18.0 / 19.0) and the module technical name.
