Vendor-Managed Inventory & Consignment

User Guide · Odoo 18.0 & 19.0

Consignment ownership tracking, min/max VMI replenishment and consumption-based self-billing settlement

pokutsoft.com

1. Overview

Vendor-Managed Inventory & Consignment is an Odoo module (18.0 / 19.0) for the Iberian (Spain/Portugal) market.

Vendor-Managed Inventory & Consignment Manage stock that is owned by a supplier but physically held at your site, or stock that you own but is physically held at a customer's site.

2. Key Features

• VMI / Consignment Agreement

VMI / Consignment Agreement. Tracks Reference, Partner, Company, Currency, Start Date. One-click activate, close, reset reset to draft, view receipts, view consumptions.

• VMI Agreement Product Term

VMI Agreement Product Term. Tracks Agreement, Product, Unit of Measure, Settlement Unit Price, Min Qty. One-click create replenishment receipt.

• VMI Stock Consumption Event

VMI Stock Consumption Event. Tracks Lines, Settlement. One-click confirm, cancel.

• VMI FIFO Consumption Allocation

VMI FIFO Consumption Allocation. Tracks Quantity Allocated.

• VMI Consigned Stock Receipt

VMI Consigned Stock Receipt. Tracks Lines. One-click confirm, cancel.

• VMI Consigned Stock Return

VMI Consigned Stock Return. Tracks Lines. One-click confirm, cancel.

• VMI Settlement / Self-Billing Statement

VMI Settlement / Self-Billing Statement. Tracks Lines, Payment Date. One-click generate lines, confirm, mark paid, cancel.

• VMI Consigned Stock Count / Reconciliation

VMI Consigned Stock Count / Reconciliation. Tracks Lines. One-click start, validate.

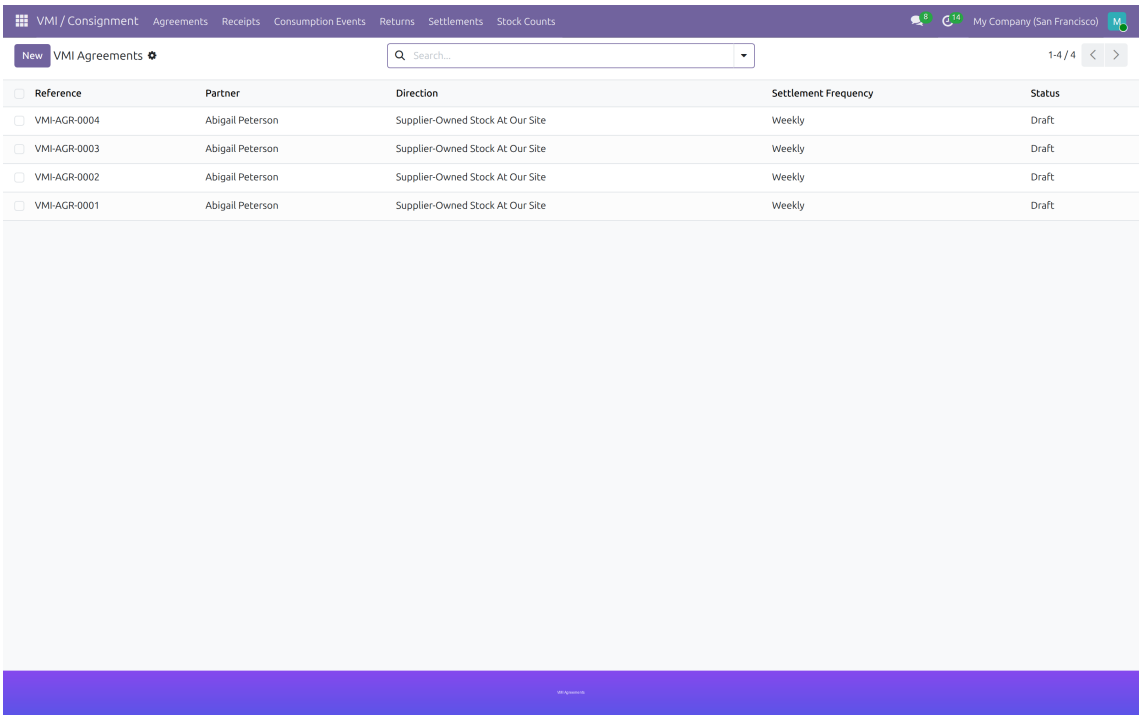
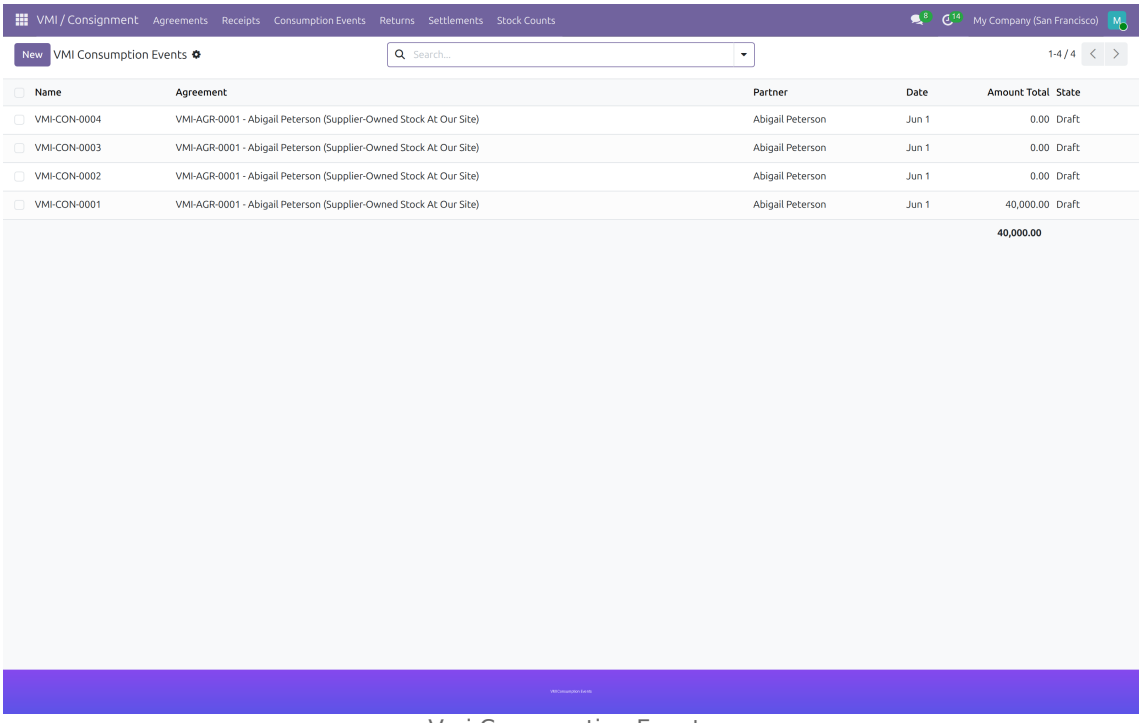
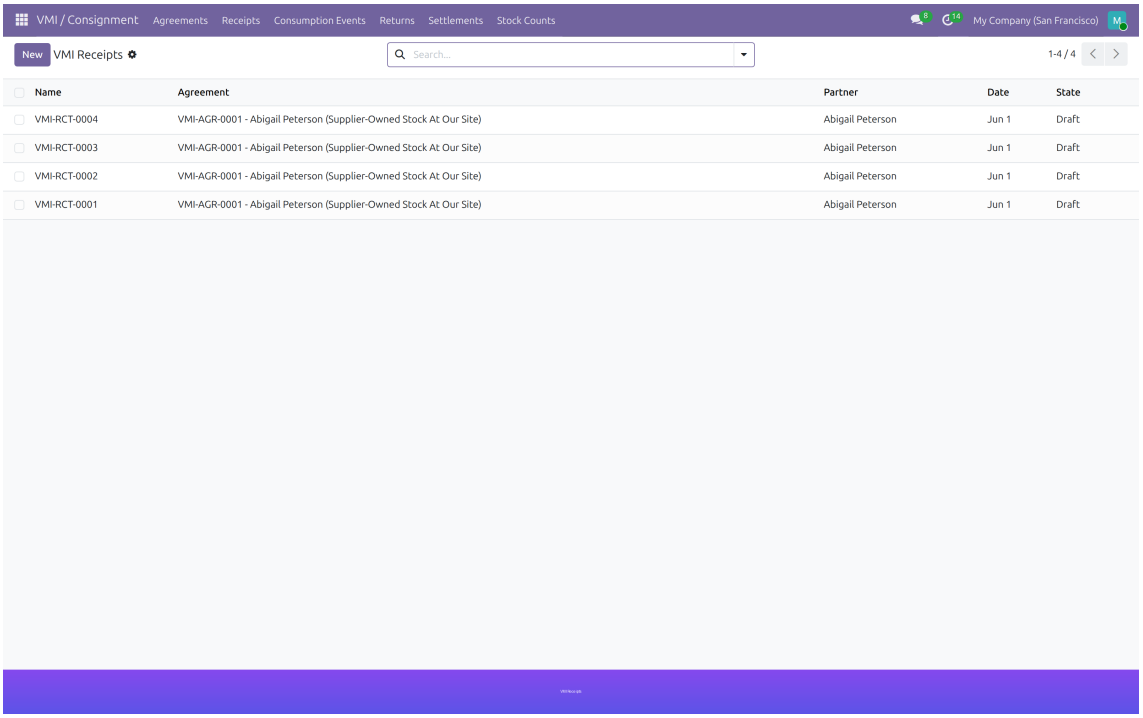
Live views from the running module (with sample data):



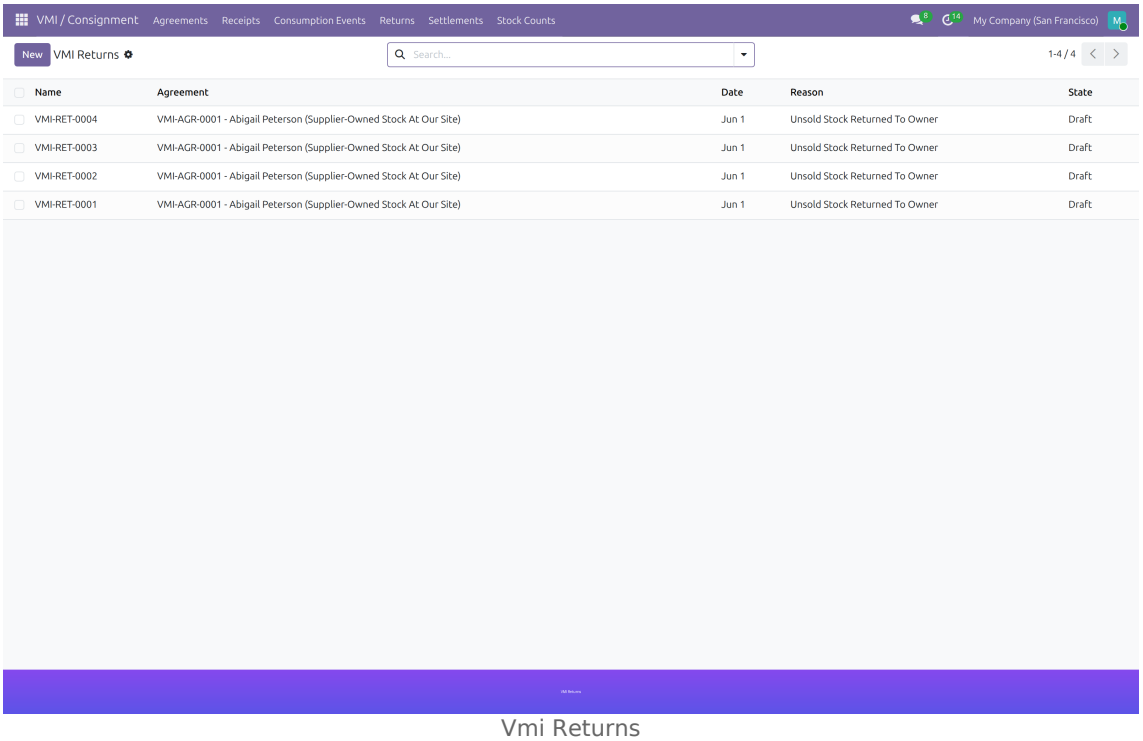
Vmi Agreements



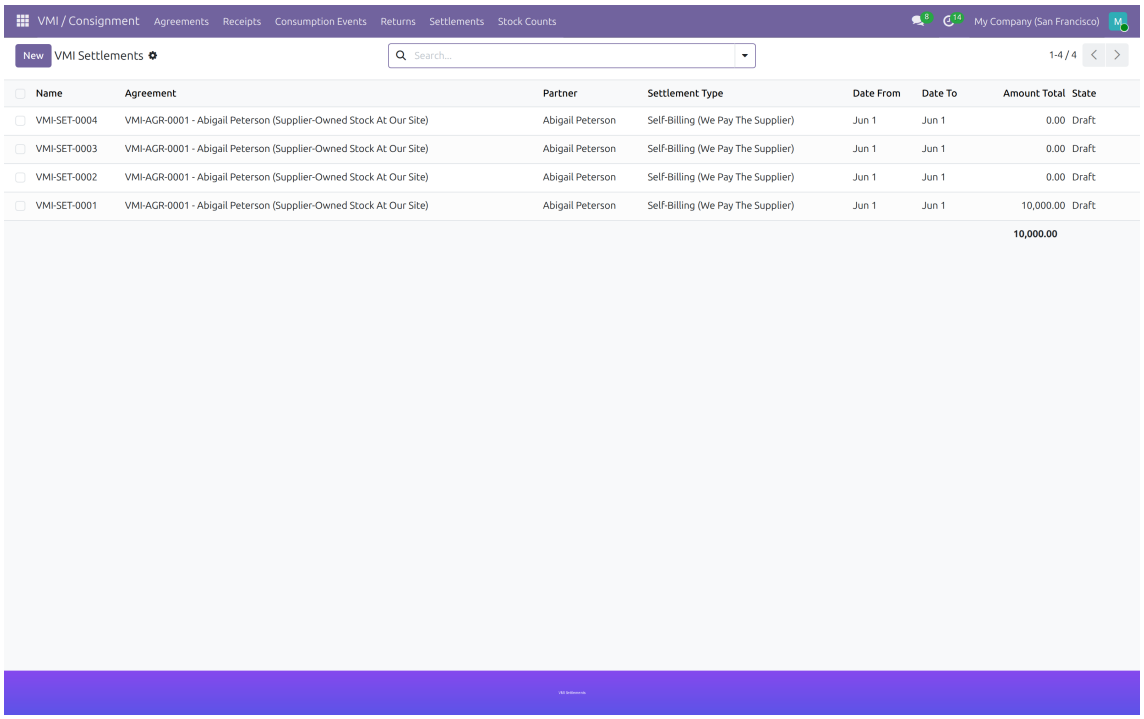
Vmi Consumption Events



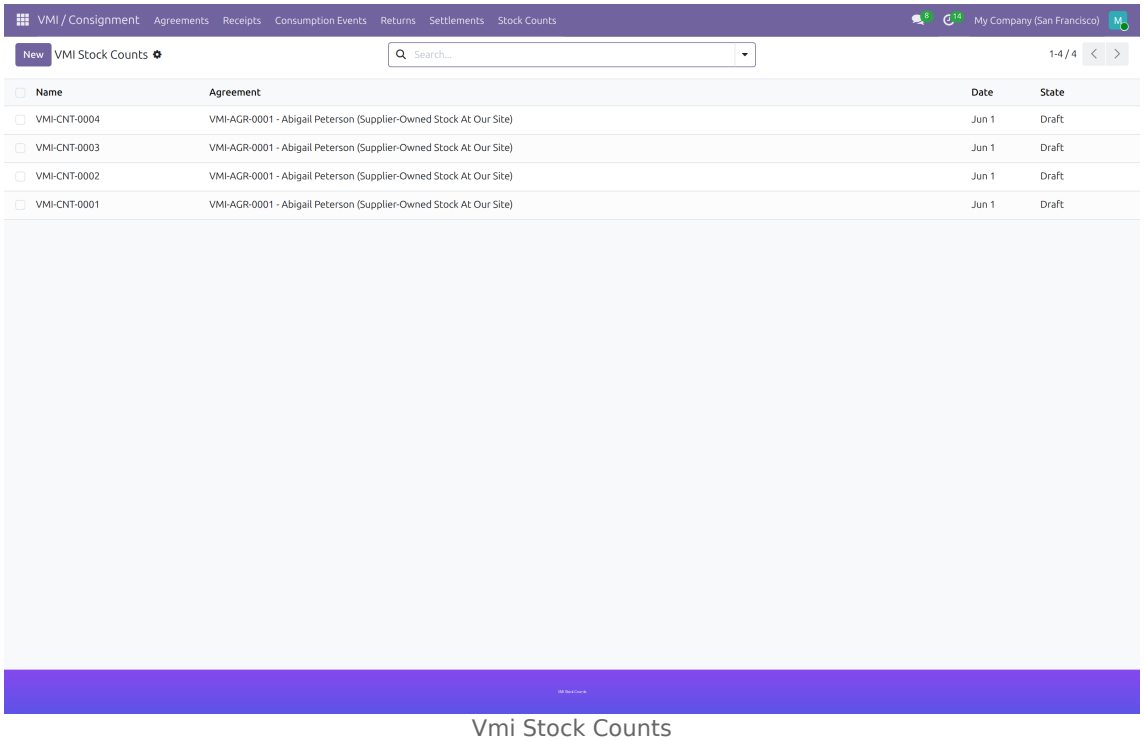
Vmi Receipts



Vmi Returns



Vmi Settlements



Vmi Stock Counts

4. Installation

Open Apps, click Update Apps List, search for “Vendor-Managed Inventory & Consignment” (technical name **vendor_managed_inventory**) and click Install. Supports Odoo 18.0 and 19.0, Community and Enterprise.

5. Menus & Navigation

After installation the following menus are available:

- VMI / Consignment
- Agreements
- Receipts
- Consumption Events
- Returns
- Settlements
- Stock Counts

6. Data Model

The module implements the following records and engines:

Model	Purpose
vmi.settlement	VMI Settlement / Self-Billing Statement
vmi.agreement	VMI / Consignment Agreement
vmi.consumption	VMI Stock Consumption Event
vmi.stock.count	VMI Consigned Stock Count / Reconciliation
vmi.return	VMI Consigned Stock Return
vmi.stock.layer	VMI Consigned Stock FIFO Layer
vmi.receipt	VMI Consigned Stock Receipt

7. Typical Workflow

1. Open the Configuration menu and set up master data / rules.
2. Create the main record via the primary menu.
3. Use the action buttons (Confirm / Compute / Generate / Export).
4. Review results in list, pivot and report views; export as needed.

8. Cert-clean & Privacy

This module generates worksheets / files / drafts. Submission to authorities is done by you with your own credentials (BYOK) — we are never the certified/registered party.

9. Support

Email **support@pokutsoft.com** or **https://pokutsoft.com**. Please state the Odoo version (18.0 / 19.0) and the technical module name.
